This original working was compiled over 20 years ago. It was organized into 7 CD's. CD 1 through CD7 contain instrumentals composed by Don and Eunice Neese. There are over 70 different song verses that coincide with their instrumental rendition. Each CD has a different theme or working for the songs contained within each. For example, CD1 has songs about "Setting Your Will" and CD6 has songs about "Liberty In The Spirit".

1. Abide in your anointing by Uttering In Spirit and look through the Index of all the song titles or Utter In The Spirit and look through each CD folder for the individual song lyrics / verses that moves your spirit. They are sorted by their track number. There will be many!
2. Download / print or screen shot the song(s). If you wish to hear the instrumental that was specifically created, you can click or download the music for that specific song.

Learn as many as possible. The more you know, the more God can more through you. Don't be afraid to add verses from your own anointing to meet your needs.

The index contains the sorted title names, the specific song / verse number and the CD / Folder of their location.
Thank you Father for this working - Hath been received, Hath Been Done.
